

Monday 14th June2021

Dear Parents/Carers,

Now the summer weather has finally arrived, we would like to remind everyone of some very important ways to keep the children as safe as possible.

Hayfever

It is a great time for the majority of children, but there are a small minority who unfortunately suffer with hay fever. If your child is a hay fever sufferer, please ensure that you give your child the appropriate medication before coming to school, as most hay fever medicine prescribed is to be taken 'once a day'.

Should it also be necessary for your child to have eye drops or a nasal spray throughout the day, please send it in to me and I will need you to complete and sign a form allowing me to administer it during the hay fever season. If your child is an extreme sufferer and you feel they should not visit the field during the lunch hour or lessons, would you please put this in writing to me, and I will make sure they stay in the playground with a dinner lady so that their allergy is not aggravated.

Sun protection

I would also take this opportunity to request that on very hot days, you apply sun cream to your children and provide them with a hat/cap to wear as it can get very hot at lunchtimes.

Staying hydrated

Last but not least, please send your child to school with a bottle of water everyday.

Many thanks for your co-operation.

Mrs G Dobson
Welfare officer
